- Book your appointments.

SIGN ME UP!

## FOR MORE INFO

Please ask the reception team in your practice about our online services and they will be happy to help, or alternatively log onto your practice website for more details.

# DID YOU KNOW?

ALL OF OUR GP PRACTICES ON THE ISLAND NOW OFFER YOU ONLINE ACCESS TO YOUR PATIENT RECORDS?

## DOWNLOAD THE PATIENT ACCESS APP FOR FREE FROM THE APP STORE!

You can now access all of our online services 24hrs a day using either your **smartphone, tablet or computer!**

Once you have signed up with your surgery & followed the process you can also download the **Patient Access** app for **FREE** from the app or android store which will allow you to book your appointments, order your prescriptions and access your patient records on the go, handy if you often need to share your records with other services.

## WHY ONLINE?

“

Not every patient will always need to have an appointment with our GP's or nurses. Every year thousands of GP appointments are used up for very common ailments like coughs and colds that could have been dealt with by going to the pharmacy first instead of the GP.

Not only does this cost the NHS thousands of pounds but this means that patients who may have a urgent medical need to see their GP often have to wait longer, and these patients often end up going to A&E when they could have been seen by a GP or Nurse.

With massive new developments planned for the Island we face a huge struggle trying to keep up with our rising local population and shortage of GP's & Nurses.

By having more patients sign up to our online services we will be able to increase the amount of available appointments and relieve some pressure from our reception teams, as well as providing you with a more convenient service, please help us so we can help you more!

”

## BENEFITS TO ONLINE PATIENT ACCESS

- Accessing your own records not only saves you time but allows you to share your medical records with others if & when needed, and check your own test results!
- Booking your appointments online saves you time calling your surgery & waiting in line, and frees up reception staff to deal with more patients.
- Ordering your prescriptions online saves you time calling or coming into the surgery, and you can also choose to have your prescription sent to your nearest pharmacy!
